

# Sprint Workforce Locator

Find, contact and direct  
your field workers in real time

**The trouble with mobile workers is that they're so... well, mobile! Once your road warriors are out making service calls, repairing, delivering, or doing whatever else your business depends on them to do, they can be very hard to track — let alone to keep efficient, effective and productive.**

But what if you could see where all your field workers were in real-time, at any time? And, with this knowledge, determine where they need to be next and even be able to send driving directions to their mobile devices?

## How we can help

Sprint Workforce Locator uses GPS to let you find, contact and direct field workers like never before — even if you're on the road yourself.

- Find the nearest driver to any pick up, delivery or service call and handle more jobs, in less time
- Track down individuals and teams using Bing Local Search
- Send timely messages to any field worker's device from your PC
- Direct multilingual workforces with text bilingual directions
- Run location history reports to audit and optimize operations
- Keep customers informed and satisfied even when schedules change
- Manage from virtually anywhere, viewing real-time worker locations on a PC, tablet or smartphone
- Get started fast — with quick, simple activation, and no special software to install on field devices

## What you'll get

With an asset management solution from Sprint you can get:\*

- The power to find field teams and individuals, virtually anywhere, anytime
- Direct-to-device messaging from your PC
- Scheduled tracking of workers
- Custom map landmarks (e.g. offices and work sites)
- Bilingual directions
- Simple location history reports

\*Available features may vary by solution

### What this means for you, and your organization

A better view of your mobile workforce means greater efficiency, lower costs, and a new level of service for your customers. A bona fide win-win-win situation.

- Drive up productivity and efficiency, with the vision needed to optimize mobile workforce operations in real-time
- Drive down labor and fuel costs, with more strategic routing and scheduling
- Drive new levels of customer service — keep customers in the loop about jobs and deliveries, and serve them faster, with greater insight into worker locations and activities
- Drive mobile worker happiness, with easier direction and communication

### Is Sprint Workforce Manager right for you?

If you answer ‘yes’ to either of the following questions, we’re confident Sprint Workforce Locator can do jaw-dropping things for your organization:

- Are you in a service industry like Construction, Field Services, Transportation, Distribution, Retail, Utilities, Heating and Cooling or Pest Control?
- Do you have a mobile workforce that engages in deliveries, pickups, maintenance and / or repair?

### With a little help from our friends
