

Unify and expand business communications.

Keep your workforce together, even when they're far away. **Sprint Unified-Communications-as-a-Service** brings everyone together with Microsoft Skype for Business. Voice and video calls, online meetings and instant messaging with an all-in-one telephony solution makes it feel like everyone is in the same place, even when they're not.

Features

- Audio conferencing
- Desktop sharing
- Multiparty HD video and content sharing
- Intuitive, full call controls
- Skype for Business web app for browser access to meetings
- OneNote Share digital note-taking app
- Secure, archived instant messaging
- Call recording, contact distribution and skills-based routing
- Quality of Service (QoS) and 24X7 support

Benefits

- **Reduce costs** related to video conferencing, telephony and travel with an all-in-one solution, because high-tech solutions don't have to mean high costs
- **Stay in touch from almost anywhere** - travel doesn't have to reduce productivity!
- **Make keeping in contact simple** by communicating in near-real time from almost any smart device
- **Make dynamic online presentations** with screen sharing and virtual whiteboards
- **Connect with employees on-the-go** with pictures, availability status, location and enhanced instant messaging
- **Receive a helping hand** when you need it the most with 24 x 7 support
- **Keep in touch with your entire enterprise** with the Sprint Hosted Contact Center
